Education

Barkatullah University Institute of Technology [BUIT]

Bachelor of Technology in Information Technology

Nov 2020 - May 2024

Bhopal, Madhya Pradesh

Experience

Code Clause

web developer intern

July 2023 - Aug 2023

remote

- I influence, guiding architecture, UI, and features — making pivotal decisions for the project's triumphant journey.
- Honed real-time problem-solving, mastering team leadership and code craftsmanship.
- Collaborated with a skilled development team, participating in code reviews and enhancing teamwork and communication skills.

Code Soft

web developer intern

Sep 2023 - Oct 2023

remote

- Hands-on skills in crafting user - centric web apps, mastering HTML, CSS, JavaScript.
- Crafted responsive websites, ensuring full flexibility — a testament to my impactful internship.
- Led the team, mastering team management and collaboration dynamics during my internship.

Projects

Reform | *Nextjs, Typescript, Tailwind, Nodejs, Prisma, DnD kit, PostgreSQL, Server actions* 

- Spearheaded the development of an intuitive platform that enables effortless creation and sharing of forms, augmented by a visually appealing Webflow prototype feature.
- Facilitated easy addition and customization of new fields, enhancing the platform's versatility.

Student Management System | *Front-end project | React, Redux, Tailwind* 

- Developed the front-end of a comprehensive Student Management System using React, Redux, and Tailwind CSS, resulting in an intuitive and user - friendly interface for managing student information.
- Implemented state management and data flow using Redux, ensuring efficient data retrieval, manipulation, and real-time updates, enhancing the overall user experience.

Snax Blogs | *Back-end project | mongo, react, node, express* 

- Led the development of Snax Blog, a feature-rich blogging website that allows users to create and manage their blogs. Employed a full-stack technology stack, including MongoDB, React, Node.js, and Express.
- Implemented robust user authentication to ensure secure access control and personalized user experiences, prioritizing data privacy and security.
- Designed and developed a user-friendly interface for creating and managing blog content, enhancing the platform's usability and user engagement.

Technical skills

Programming Languages - Javascript / Typescript, C++

Frontend Technologies - Html, Css, React.js/Next.js, Bootstrap/Tailwind, Vercel/Netlify

Backend Technologies - Nodejs, Express.js, Sanity.io, MongoDB, Firebase

Developer Tools - Linux, Redux/Zustand, Github, Docker, Canva, Insomnia, Postman

Extracurricular activities

- Dedicated to knowledge sharing, I contribute insightful technical [blogs](#), fostering community learning.
- Optimized an open-source project, submitting a pull request for a REST API in Postman Labs [GitHub](#).
- Led a workshop, training seven students in both front-end and back-end technologies with real-world projects.
