## EDUCATION

**Barkatullah University Institute of Technology [BUIIT]**  
Bachelor of Technology in Information Technology

Nov. 2020 – May 2024  
Bhopal, Madhya Pradesh

## EXPERIENCE

### Code Clause

web development Intern

July 2023 to Aug 2023

- During my internship, I actively contributed to shaping architecture plans, UI designs, and feature development, and my role involved making critical decisions that were pivotal to the project's success.

### code Soft

web development Intern

Sep 2023 to Oct 2023

- As a web development intern at Code Soft, I gained hands-on experience in building responsive and user-friendly web applications, honing my skills in HTML, CSS, JavaScript, and front-end development under the guidance of experienced professionals.

## PROJECTS

### Portfolio | Next.js , Typescript , Redux , ReactEmail

- My comprehensive portfolio, powered by Next.js, elegantly displays all of my relevant information.
- Using Next.js, I've crafted a portfolio that effectively presents all of my key details.

### IMDB-clone | React , Tailwind

- Developed an IMDB clone featuring real-time updates on upcoming releases, popular movies, and top-rated films, demonstrating proficiency in web development and data integration.
- Designed and implemented the front-end of an IMDB clone with a focus on delivering an engaging user experience through intuitive interfaces and seamless navigation, showcasing strong skills in web development and UI design.

### React-Quizze | React , Tailwind

- Led the development of Quizzy , A Android-based multiple-choice question examination system using React.js, showcasing expertise in front-end development and user-friendly interfaces.
- Enhanced user engagement through intuitive UI/UX design, resulting in improved user experience for Quizzy's audience.

## TECHNICAL SKILLS

**Programming Languages::** Javascript/ Typescript, C++.

**Frontend Technologies::** HTML, Css, Reactjs/Nextjs, Bootstrap/Tailwind , Vercel/Netlify.

**Backend Technologies: :** GraphQL, Nodejs, Express.js , Sanity.io.

**Mern Stack Technologies: :** MongoDB , React.js , Express.js , Node.js.

**Developer Tools: :** Linux/Window , Redux/Zustand, Git, Docker, Canva , Insomnia , Postman.

## EXTRA- ACTIVITIES

- Founded and led a hands-on workshop for a group of seven students, providing comprehensive training in both front-end and back-end technologies while guiding them through real-world projects.
- Passionate about knowledge sharing,I regularly contribute insightful technical blogs covering a wide range of topics, showcasing my dedication to staying informed and facilitating learning within the community.
- I have collaborated with my friend and helped him to create a student attendance system with face recognition feature in Microsoft.
- Contributed to an open-source project by creating a pull request for one of the REST APIs within the Postman Labs GitHub repository.
